Service Operations

The service department is responsible for routine preventive maintenance, breakdown response and repairs. The department genuinely committed to providing a proactive service to our valuable clients with the focus on reducing unnecessary breakdown, primarily through the implementation of our excellent preventive maintenance program. We only utilize staff with the skills and qualifications appropriate to the work being undertaken.

Contracting/ Installation Department

Notus cooling solutions offers qualified personnel with the expertise to provide an air conditioning advisory service for clients who may be contemplating upgrading, modifying or extending current systems. In addition we are able to provide service for clients who are building new premises and can provide advice on the best system to install.
